

“MagLets”

“Magic Letters” (Nanosemantics) is a Radical, Comprehensive Theory Of Human Language And Thought

It is a Universal Theory, focusing on Hebrew & Greek, the two Original Foundation Languages of Western Civilization.

Parking Lot Puzzle.

Can you figure out the number under the black car?

Arithmetic & even Calculus won't help you here: it's all a matter of perspective, seeing the problem from the right angle (even if it seems upside down).

*MagLets Bring all languages into a **New Grid**—not the old Grammar Grid or Dialogue Grid.*
